This list enables a person to ascertain whether the person is dealing with a licensed insurance intermediary or a responsible officer in matters of or connected with any regulated activity; or to ascertain the particulars of the licensing of a person as a licensed insurance intermediary or the particulars of the approval of an individual as a responsible officer.

Although the list is updated regularly, it may not contain the most up-to-date information of all licensed insurance intermediaries as there is a time lag in processing and updating the information of the insurance intermediaries on the list. In certain circumstances, such as system failure or other unexpected situations which are beyond our control, the time lag may be longer.

If there is any question regarding the information shown in the list, please visit Insurance Authority website:
